**Applicant's Name** City of Harrisonburg – Department of Public Works, in conjunction with  
Harrisonburg Downtown Renaissance

**Priority Need** Public Facilities – Street Improvements / Planning

**Project Title** Downtown Streetscape Design

#### Project Description

The development of an engineering design for the downtown revitalization and streetscape plan. Streetscape improvements are a key component of downtown revitalization. Many of the current sidewalks are deteriorated and unsafe, which poses a particular problem for the disabled adults who live in Lineweaver Apartments downtown. Harrisonburg's downtown is the only such district in the City. It serves the City as a whole (which is more than 51% LMI) because of its uniqueness, and further, there are many LMI individuals and families living in and visiting the downtown area. The wayfinding signs are inadequate, and the area would benefit from improvements such as benches, trash containers, lighting, banners, and plant life. Two recently completed studies (one by JMU students and one by Spotswood High School students) documented the public's desire for downtown revitalization and streetscape improvements downtown. \$60,000 was requested.

**Location** 345 South Main Street, Harrisonburg, VA 22801. The entire City will benefit. The plans for down-town will eventually encompass Main Street from Elizabeth Street to Market Street, around Court Square, Water St., and Newman St. However, this \$30,000 would only fund design the design from Elizabeth to Bruce Street.
